# Chlorhexidine gluconate davis drug guide pdf 1

Animal studies show risk and human studies not available or neither animal nor human studies done. Adult/Pediatric Dosage Forms & Strengths oral solution chip Peridex, PerioGard; PO rinse 15 mL q12hr Adjunct to Scaling & Root Planing PerioChip: 1-8 chips in periodontal pocket, depth >5 mm; repeat q3Months Oral Mucositis (Orphan) Amelioration of oral mucositis associated with cytoreductive therapy used in conditioning patients for bone marrow transplantation therapy Orphan indication sponsor Procter & Gamble Company; Sharon Wood Technical Center, 11370 Reed Hartman Highway, Cincinnati, OH 45241 Safety and efficacy not established No Interactions Found Interactions Found/Contraindicated/Serious - Use Alternative/Significant - Monitor Closely/Minor/All Interactions Sort By: Severity/Name/Contraindicated (1)allogeneic cultured keratinocytes/fibroblasts in bovine collagenchlorhexidine oral decreases effects of allogeneic cultured keratinocytes/fibroblasts in bovine collagen by Other (see comment). Use Caution/Monitor. estrogens conjugated synthetic/Monitor Closely (1)chlorhexidine oral will decrease the level or effect of estrogens conjugated synthetic by altering intestinal flora. Minor/Significance Unknown.typhoid vaccine live/Serious - Use Alternative (1)chlorhexidine oral decreases effects of typhoid vaccine live by pharmacodynamic antagonism. Use Caution/Monitor. mestranolchlorhexidine oral will decrease the level or effect of mestranol by altering intestinal flora. Comment: Exposure to topical antiseptics has been shown to degrade Gintuit; if exposed, irrigate the wound thoroughly with saline and allow a suitable wash-out period to elapse before applying Gintuit.Serious - Use Alternative (2)BCG vaccine livechlorhexidine oral decreases effects of BCG vaccine live by pharmacodynamic antagonism. Medscape prescription drug monographs are based on FDA-approved labeling information, unless otherwise noted, combined with additional data derived from primary medical literature. Use Caution/Monitor.Minor (7)balsalazidechlorhexidine oral will decrease the level or effect of balsalazide by altering intestinal flora. Use Caution/Monitor.conjugated estrogenschlorhexidine oral will decrease the level or effect of conjugated estrogens by altering intestinal flora. Controlled studies in pregnant women show no evidence of fetal risk. Comment: Exposure to topical antiseptics has been shown to degrade Gintuit; if exposed, irrigate the wound thoroughly with saline and allow a suitable wash-out period to elapse before applying Gintuit.balsalazideMinor (1)chlorhexidine oral will decrease the level or effect of balsalazide by altering intestinal flora. Wait until Abx Tx complete to administer live bacterial vaccine.biotinMinor (1)chlorhexidine oral will decrease the level or effect of biotin by altering intestinal flora. Use Caution/Monitor. estropipatechlorhexidine oral will decrease the level or effect of estropipate by altering intestinal flora. Use Caution/Monitor. estradiolchlorhexidine oral will decrease the level or effect of estradiol by altering intestinal flora. Positive evidence of human fetal risk. Polybiguanide antiseptic and antimicrobial drug with bactericidal activity; binds to the negatively charged bacterial cell walls and extramicrobial complexes Pharmacokinetics Absorption: ~30% retained in the oral cavity following rinsing and slowly released into oral fluids; poorly absorbed Time to peak, plasma: Oral rinse: Detectable levels not present after 12 hr Excretion: Feces (~90%); urine ( No images available for this drug. Safer alternatives exist. Use Caution/Monitor. estropipate/Monitor Closely (1)chlorhexidine oral will decrease the level or effect of estropipate by altering intestinal flora. Minor/Significance Unknown.pyridoxine (Antidote)Minor (1)chlorhexidine oral will decrease the level or effect of pyridoxine (Antidote) by altering intestinal flora. X: Do not use in pregnancy. Use Caution/Monitor. digoxinchlorhexidine oral will increase the level or effect of digoxin by altering intestinal flora. Either animal studies show no risk but human studies not available or animal studies showed minor risks and human studies done and showed no risk. Wait until Abx Tx complete to administer live bacterial vaccine.typhoid vaccine livechlorhexidine oral decreases effects of typhoid vaccine live by pharmacodynamic antagonism. Applies only to oral forms of hormone. Minor/Significance Unknown.pantothenic acidchlorhexidine oral will decrease the level or effect of pantothenic acid by altering intestinal flora. Minor/Significance Unknown.pyridoxineMinor (1)chlorhexidine oral will decrease the level or effect of pyridoxine by altering intestinal flora. B: May be acceptable. Contraindicated. Minor/Significance Unknown.pyridoxinechlorhexidine oral will decrease the level or effect of pyridoxine by altering intestinal flora. A Patient Handout is not currently available for this monograph. Use Caution/Monitor. mestranol/Monitor Closely (1)chlorhexidine oral will decrease the level or effect of mestranol by altering intestinal flora. Minor/Significance Unknown. Your list will be saved and can be edited at any time.Adding plans allows you to:View the formulary and any restrictions for each plan.Manage and view all your plans together - even plans in different states.Compare formulary status to other drugs in the same class.Access your plan list on any device - mobile or desktop. Minor/Significance Unknown.thiamineMinor (1)chlorhexidine oral will decrease the level or effect of thiamine by altering intestinal flora. Use Caution/Monitor.pantothenic acidMinor (1)chlorhexidine oral will decrease the level or effect of pantothenic acid by altering intestinal flora. Use Caution/Monitor.BCG vaccine live/Serious - Use Alternative (1)chlorhexidine oral decreases effects of BCG vaccine live by pharmacodynamic antagonism. Minor/Significance Unknown.thiaminechlorhexidine oral will decrease the level or effect of thiamine by altering intestinal flora. Use Caution/Monitor. estradiol/Monitor Closely (1)chlorhexidine oral will decrease the level or effect of estradiol by altering intestinal flora. Minor/Significance Unknown.vitamin K1 (phytonadione)chlorhexidine oral will decrease the level or effect of vitamin K1 (phytonadione) by altering intestinal flora. Use Caution/Monitor. digoxin/Monitor Closely (1)chlorhexidine oral will increase the level or effect of digoxin by altering intestinal flora. Applies only to oral form of both agents. Minor/Significance Unknown.conjugated estrogens/Monitor Closely (1)chlorhexidine oral will decrease the level or effect of conjugated estrogens by altering intestinal flora. Use Caution/Monitor. estrogens conjugated syntheticchlorhexidine oral will decrease the level or effect of estrogens conjugated synthetic by altering intestinal flora. D: Use in LIFE-THREATENING emergencies when no safer drug available. Risks involved outweigh potential benefits. C: Use with caution if benefits outweigh risks. Minor/Significance Unknown.allogeneic cultured keratinocytes/fibroblasts in bovine collagenContraindicated (1)chlorhexidine oral decreases effects of allogeneic cultured keratinocytes/fibroblasts in bovine collagen by Other (see comment). Increased tartar on teeth 1-10% Skin and oral irritation Staining of tooth Bronchitis Taste sense altered Toothache Increase in calculus formation Stomatitis Gingivitis Glossitis Aphthous ulcer Dry mouth Hypesthesia Glossal edema, and paresthesia Grossly obvious gingivitis Desquamation Coated tongue Keratinization Geographic tongue Mucocele Anaphylaxis Hypersensitivity Cautions Serious allergic reactions reported, including anaphylaxis that can occur within minutes presenting as wheezing, difficulty breathing, facial edema, hives, severe rash, or hypotension and shock Extended-release pellets: Anaphylaxis and serious allergic reactions reported during postmarketing surveillance Increase of tartar on teeth Changes in taste Staining of oral surfaces (mucosa, teeth, dorsum of tongue) may be visible as soon as 1wk after therapy begins and is more pronounced when there is a heavy accumulation of unremoved plaque and when teeth fillings have rough surfaces; stain does not have a clinically adverse effect but because removal may not be possible, patient with frontal restoration should be advised of the potential permanency of the stain Pregnancy Category: C Lactation: excretion in milk unknown; use with cautionPregnancy Categories A: Generally acceptable. Wait until Abx Tx complete to administer live bacterial vaccine.Monitor Closely (7)bazedoxifene/conjugated estrogenschlorhexidine oral will decrease the level or effect of bazedoxifene/conjugated estrogens by altering intestinal flora. NA: Information not available. Minor/Significance Unknown.bazedoxifene/conjugated estrogens/Monitor Closely (1)chlorhexidine oral will decrease the level or effect of bazedoxifene/conjugated estrogens by altering intestinal flora. Minor/Significance Unknown.pyridoxine (Antidote)chlorhexidine oral will decrease the level or effect of pyridoxine (Antidote) by altering intestinal flora. Low risk of contraceptive failure. Wait until Abx Tx complete to administer live bacterial vaccine.vitamin K1 (phytonadione)Minor (1)chlorhexidine oral will decrease the level or effect of vitamin K1 (phytonadione) by altering intestinal flora. Formulary/Patient Discounts/Adding plans allows you to compare formulary status to other drugs in the same class.To view formulary information first create a list of plans. Minor/Significance Unknown.biotinchlorhexidine oral will decrease the level or effect of biotin by altering intestinal flora.
